

Baxter with **Intera 3** Software Driving Innovation

Twice as fast, Twice as precise ...

Intera 3 is the latest and by far the most impressive version of our revolutionary software platform for manufacturing and production applications. After just over one year of incremental development since our original operating system was released on the first shipments of Baxter in 2013, Intera 3 enables Baxter to perform with over twice the speed, precision and motion quality.

Twice as many!

We're so certain that once you've seen what Baxter with Intera 3 can do, you'll have a need for not one, but multiple robots on your production floor.

So if you buy a Baxter by December 31st, we'll help you accelerate your fleet by providing a **second Baxter free*** of charge.

Contact Us

To get more information on the second Baxter offer or to get a demonstration of the power of Baxter with Intera 3 software, [email us](#) or call us at 800-444-4831

**** In order to qualify for and receive the free robot, Customer must (1) be prepared to take delivery of the first robot by December 31, 2014, (2) purchase 2 end effectors, pedestal and 2 year extended warranty/software upgrade package for the free robot, and (3) deploy the robot at your plant (brief application video required).***

Promotion Terms

- Customer must submit one or more PO's (at the same time) to Rethink Robotics or authorized distributor for both the first full priced unit (including all required accessories and warranty) AND the second free robot (including all required accessories and warranty).
- Customer must be prepared to receive the first full priced robot before December 31st 2014.
- There is no limit to the number of units that may be purchased under this promotion by a single customer, though Rethink Robotics reserves the right to discontinue this promotional offer at any time.
- Customer permits Rethink Robotics to create a video case study/testimonial and issue a mutually agreeable press release upon successful implementation of Baxter.
- Delivery dates of all robots will be at the discretion of Rethink Robotics and will be confirmed subject to availability on a first-come, first-served basis.

If above requirements to receive the free robot are not met the PO (or portion thereof) relating to the free robot (and related accessories and warranty) will become void, at Rethink Robotics discretion.
